

**State of Alaska**  
**FY2010 Governor's Operating Budget**

**Department of Transportation/Public Facilities**  
**Traffic Signal Management**  
**RDU/Component Budget Summary**

**RDU/Component: Traffic Signal Management**

*(There is only one component in this RDU. To reduce duplicate information, we did not print a separate RDU section.)*

**Contribution to Department's Mission**

Maintain and operate the state traffic control devices in the Anchorage and Eagle River area through a contractual agreement with the Municipality of Anchorage.

**Core Services**

- By contracting with the Municipality of Anchorage, state traffic signals are operated in conjunction with city signals. This is more efficient and eliminates duplication of personnel, equipment, and materials. It also allows for a unified progressed signal system. The Department of Transportation and Public Facilities has traffic signals and illumination systems within the Municipality of Anchorage. The Municipality of Anchorage maintains and operates all of these systems.

**FY2010 Resources Allocated to Achieve Results**

**FY2010 Component Budget: \$1,633,800**

**Personnel:**

Full time	0
Part time	0
<b>Total</b>	<b>0</b>

**Key Component Challenges**

Continue to keep all of the department traffic signals operating and maintained through the Municipality of Anchorage. Funding level is a key factor which should include inflationary increases and additions for newly installed signals. The Municipality and the State have a Transfer of Responsibility Agreement (TORA) since 2005 on the sharing of costs for the traffic signals. The Municipality has recently indicated that they are no longer satisfied with the current TORA and they wish to negotiate a new agreement with a significant cost increase.

**Significant Changes in Results to be Delivered in FY2010**

The department anticipates the budget to support the same level of service that has been provided in the past.

**Major Component Accomplishments in 2008**

The department provided funding to the Municipality of Anchorage for maintenance of the state-owned traffic signal systems in Anchorage, which included increases in costs and addition of new signals to the system.

**Statutory and Regulatory Authority**

AAC 14 Public Works  
CFR 23 Highways
